

Course director:

Dr. Ravi Kumar

has been practicing in this picturesque town near the Nila river for the last 10 years. He is a keen researcher and has received Govt. Of India patent for his invention in dentistry.

He has been in the teaching profession since the last 5 years and is the founder president of Indian Society Of Orthodontics For General Practitioners (ISOGP), the only organization in India representing general practitioners with orthodontic practice.

He is also conducting a short term and long term (including online) **Certificate Course in Fixed Orthodontics** for the general dentist based on the Realistic Treatment Philosophy (RTP) developed by him. This treatment method includes Straight Wire, Begg's, Self-Ligating Bracket and Tip-Edge techniques to deliver shortened treatment time as opposed to traditional orthodontic treatments. He is also practicing and teaching Lingual (Invisible) orthodontics. Dr. Ravi Kumar is also involved in developing a frictionless Ligation system for orthodontic brackets (Patent Pending).

Case Review & Post-Course Mentoring: No extra charges will be levied for the post-course mentoring of all new and in-progress cases for a period of 5 years. This post course mentoring is the unique highlight of the course as this will allow the participant to discuss their cases as the treatment progresses

ACADEMY OF FIXED ORTHODONTICS (AFO)

INTERNATIONAL ASSOCIATION FOR ORTHODONTICS (IAO)

THE ONLY COMPLETE ORTHODONTIC COURSE IN THE
WORLD FOR GENERAL PRACTITIONERS

LABIAL 2 LINGUAL

After the success of its first international course in New Delhi, India, AFO is planning a series of course in Egypt. The astute participants from Egypt gets a specially designed course whereby they are directly given AFO Level II certification also the course is recognized for IAO tier advancement program.

This course is intended for dentists who have little or no experience in orthodontics and want to learn to incorporate it into their practices or progress from removable appliances to a comprehensive, fixed technique. This is a one-of-a-kind, hands-on course which will help you to increase your practice base.
